a digitizer adds another dimension

The Bit Pad computer digitizer converts graphic information
into digital form for direct entry into a computer. By touching a
pen like stylus or a cursor, to any position on a drawing,
diagram, photograph, or other graphic presentation, the
position co-ordinates are converted to digital equivalents.

● Bit Pad interfaces with almost any micro computer.

● Bit Pad consists of a 15" sq. digitizer tablet (11" sq.
active area), a stylus, and a controller cabinet.

● Bit pad costs only £532

(inc RS232) excluding VAT

Fill in the coupon and
we will send you full
information and details.
